

WHO KNEW? DR. MA'AT IS THE POWER PROPHET

“We can either seek to survive in the chaos. Or we can survive through the chaos with aspiration that advances us into our Divine Purpose.”

F

or more than 30 years, Dr. Akila-Ka Ma'at is a highly sought-after professional metaphysical educator, healer, and guide certified as Spiritual Coach and Master of Divination.

Dr. Ma'at is currently enrolled at the University of Metaphysics/University of Sedona to attain her PhD in Metaphysical Psychology and Ordination as a Metaphysical Minister.

Dr. Ma'at is a professional dancer who has traveled the world, finally receiving a PhD in Communication to pursue an academic career. Along the way from childhood to midlife, Dr. Ma'at separated from her true nature, giftings, and authentic self through ego and material satiation – bedrocks of the external world.

As a child named Jennifer R. Warren was exposed to adverse childhood events, which empowered years of debilitating self-criticism and low self-esteem. These events included childhood religious indoctrination, socialization within a white educational system, and being raised in a family who ascribed to the American meritocracy – work hard, be accomplished, and you will be rewarded.

Dr. Ma'at explains, “The ‘god’ was white; the education inferiorized black experiences in America, underscoring the savage nature of Africans. And the idea of ‘merit’ was, for a lack of a better word, bullshit.” Through most of her life, she had no knowledge of her history, her self, or belief in her capacity to control life events in self-fulfilling ways.

Looking for something to bring her peace and build up her self-confidence, Jennifer rediscovered the clairvoyant, intuitive, and empathetic gifts honed by her mother during her youth. In advancing these gifts through metaphysical advising, Jennifer realized her innate calling to heal and cultivate power in others through Divination. Subsequently, she felt a pull toward the study of metaphysics, leading her to consume information about Melanin metaphysics.

“You see, being disparaged by a whole society for having dark skin, I was driven to understand everything about melanin. Eventually I cultivated an ontological and epistemology understanding of melanin, which was spiritual,” according to Dr. Ma'at

The transformative belief about the power of melanin encouraged her to lay claim to her name, which was given to her because of its popularity at the time.

Dr. Akila-Ka Ma'at, Founder/Director of Black Dot Center and its affiliates, Institute for Health Equity Education & Research, and Black Health Science Mecca

In dismantling the external influences that were far removed from her authentic self, she transitioned into Akila-Ka Ma'at, which signifies life poured into souls enabling action in a balanced and harmonious manner.

And that is what Dr. Akila-Ka Ma'at, the Power Prophet does for individuals, groups, and audiences. My purpose in life is to give life and enable action by enhancing the capacity for self-realization, self-growth, and self-fulfillment.

While Dr. Ma'at is naturally skilled in many and diverse metaphysical arts and sciences, she is an expert in Melanin Metaphysics (MM).

MM is an ancient African philosophical and spiritual belief system that recognizes and celebrates the inherent spiritual power of melanin, which we all biologically must varying degrees. Revered as a sacred substance, melanin is a network between all the spiritual-material planes of the Cosmos, a physical manifestation of divine energy, and a conduit for spiritual connection.

Through her practice of Melanin Spiritualism, Dr. Ma'at discovered her 'real self' as a divine energy with powers to claim and manifest life in ways that align with her authentic self.

As the foundation for her work, Melanin Spirituality grounds Dr. Ma'at in a deep knowing that:

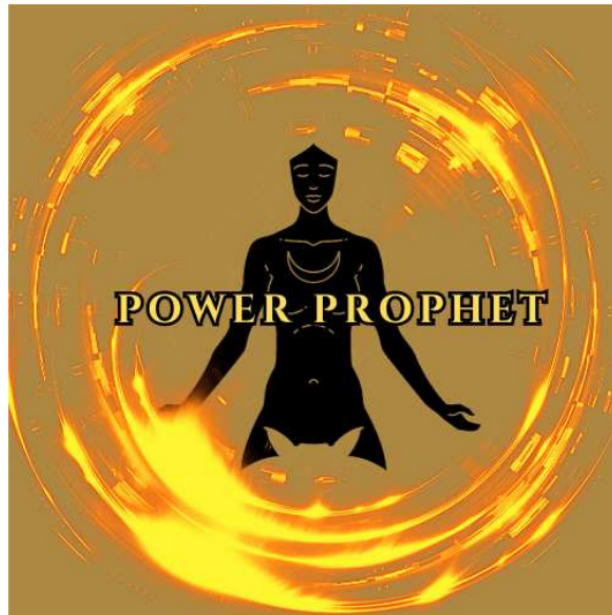

- 1) the Cosmos is created and operated by orderly Spiritual Laws (e.g., divine oneness, vibration, creativity, circularity or reversibility, inspired action, perpetual transmutation of energy, cause and effect, rhythm),
- 2) We are energetically the Cosmos and therefore to everything we see and that which we cannot;
- 3) When we operate in life as our 'authentic self,' we are endowed with the capacity to comprehend these laws;
- 4) The laws allow us to discern, extract, arrange/rearrange, combine/recombine the energies or spiritual elements sustaining the Cosmos into creative patterns that manifest a harmonized, united, and workable end product.

In this spiritual tradition, Dr. Ma'at is led by her cosmic connection to collective energies and her spiritual guides and ancestors to discern personal circumstances and patterns that call forth opportunities (i.e., peace) and challenges (i.e., chaos).

She uses various, which may include meditation, creative movement, playing childhood games, testimonies and spoken word, guided visualization, positive affirmations, goal setting and strategies/plans for achieving, guidance on self-fulfilling prophecy, positivity mindset activities, and manifestat

Nature is a central element of her counseling. Thus, Dr. Ma'at provides therapeutic remedies and rituals that involve playing with, being in, growing, and appreciating the energies of the earth, trees, plants, animals/insects, natural sounds, and the ocean to seek balance, healing, and powering up.

Dr. Akila-Ka Ma'at has helped numerous clients individually and in groups navigate personal and professional challenges, and many attest to the transformative impact of her unique metaphysical approach.
